MAKING EVERYDAY SPECIAL!

What is CASA Family Day?

CASA Family Day is a national program that celebrates simple, everyday things parents can do to build a strong, healthy relationship with their kids that prevents future substance use.

What started as a grassroots initiative to inform parents about the benefits of frequent family dinners has evolved to reflect how important it is for parents to connect with their kids. Everyday activities like sharing a meal, playing a game, or asking about their day can significantly boost a child's development. Each of these moments offers an opportunity to communicate with kids and to really listen to what's on their mind.

Materials from the Family Day website are downloaded over 10,000 times

More than 35,000 community groups across the country connect with Family Day through social media

30,000 Family Day brochures and magnets are distributed nationwide

Each year...

WHAT CAN FAMILY DAY DO FOR YOUR COMPANY?

Every year, Center on Addiction seeks corporate partners who share our commitment to strengthening family ties, thereby strengthening the bonds that hold our homes, neighborhoods, and communities together. Family Day is a turnkey opportunity to integrate your company's marketing program into a reputable, national celebration and join other companies in their effort to support **family wellness** by empowering caregivers with the tools they need to raise resilient and healthy children.

Your support of Family Day would affirm and communicate your commitment to the wellbeing of your consumers and employees. It enhances your reputation as a company that values the health of our nation's youth and celebrates the importance of strong family ties. You would be associated with a national campaign that is supported by scores of families, nonprofit groups, Major League Baseball teams, and elected officials.

Did you know?

- Kids of hands-on parents are far less likely to smoke, drink or use other drugs.
- Addiction almost always starts in adolescence: 1 in 4 people who begin using any addictive substances before age 18 will become addicted.
- Preventing or delaying teens from using alcohol, tobacco or other drugs for as long as possible is crucial to their health and safety. Every year that first use is delayed, the risk of addiction goes down.

HOW CAN YOU LEVERAGE FAMILY DAY?

- Create unique experiences that strengthen family ties for your employees
- Share tools/resources that promote family wellness for your employees and customers
